**1. Read the following text and make a flow-chart showing the achievable objectives of the peace movements. (No 1 has been done for you.)** **1x5=5**

A peace movement is a social movement that seeks to achieve ideals such as the ending of a particular war (or all wars), minimize inter-human violence in a particular place or type of situation, including ban of guns, and is often linked to the goal of achieving world peace. Means to achieve these ends include advocacy of pacifism, nonviolent resistance, diplomacy, boycotts, demonstrations, peace camps, supporting anti-war political candidates, and banning guns, creating open government, direct democracy, supporting people who expose war-crimes or conspiracies to create wars, and making laws. Different organizations involved in peace movements may have some diverse goals, but one common goal is sustainability of peace.

Peace movement is basically an all-encompassing "anti-war movement". It is primarily characterized by a belief that human beings should not wage war on each other or engage in violent conflicts over language, race, natural resources, religion or ideology. It is believed that military power is not the equivalent of justice. The peace movement tends to oppose the proliferation of dangerous technologies and weapons of mass destruction, in particular, nuclear weapons and biological warfare. Moreover, many object to the export of weapons including hand-held machine guns and grenades by leading economic nations to lesser developed nations.
